Inner Cities

History of Inner Cities - - - G.M.

Geographical Position - Contemporary Trade Commerce -

Success - ^{duty to} ~~play~~ back into Community - Buildings, Art

Adheres - Outlets - as well as hospitals, schools.

Cities as a focus, as a whole - Developed its pace.

These - roots work

- Work come back by stopping around
waiting for handouts

- Confidence in themselves is like riding
a bicycle - if you believe you can do it,
you can learn.

- must have rules - to enable people
to know where they stand and to
help them to do better than their best.

- like architecture - have to observe rules -
good foundations, correct, build, hard working
plans - point - proportion - measure of

- so ^{architecture} in social must have rules or build it
will collapse.

'Inner Cities'

A label used to describe different issues
and many different areas
↳ ethnic problems, ^{deducing} old manufacturing towns
- outer town - inner estates

Means different things in different contexts.

Support for many different programmes.

One has to reflect the conditions in
which local enterprise and initiative can raise the
quality of life in inner cities.

← Growth in new business - (creating developments)
crime, housing
(West Midlands)

Programmes ① local authority - greater accountability.

- housing not to fail.

- encourage competition.

- Housing - directly related housing

↳ standards - poor achievement in work areas

Crime Prevention.

Targeted
U.D.C.
White Paper
Task Force
Urban Programme

Local authorities - Labour saw as part of
2015

In some areas - part of the problem

These cities intended part of a long
strategy - must help them to reverse it.
